

TIGER NM

PROTABLE HEAVY DUTY GAS CUTTING MACHINE

- Heavy duty portable gas cutting machine with facility of clutch arrangement for easy manual movement of machine
- Machine can be used with TWO torches simulteneously (This facility is OPTIONAL)
- Torch is with Nozzle Mix technology with 3 seat nozzle hence no backfire
- Supplied with steel rail of 1.8 mtr length which is very useful for straight cutting of the plate
- Speed variation is through mechanical arrangement which is maintenance free
- Bevel setting with locking facility ensures bevel accuracy during longer cutting

BRIEF SPECIFICATIONS:

Input Power Supply	220 / 240 V, 1 ph, 50 Hz	Verical Adjustment of torch	70 mm
Cutting Capacity	100 mm	Nozzle Type	ANM (for Oxy-Acetylene Cutting) PNM (For Oxy-LPG Cutting)
Straight Cut	1.8 meter & Multiplies by additional rails	Dimensions : Length	350 mm
Circle Cutting	200 to 2000 mm dia	Width	220 mm
Bevel Cutting	upto 45 deg.	Height	175 mm
Cutting Speed	150 to 800 mm	Weight of Machine	9.8 Kg. (W / O track)
Horizontal Adjustment of torch	100 mm	Weight of track	6.2 Kg.
