

# FLASHBACK ARRESTORS

MODEL: SLIMGUARD 82 (TORCH MOUNTED TYPE)

## SALIENT FEATURES

- **Flame Arrestor:** A sintered stainless steel cylindrical element is included in Type 82 to quench the flame resulting from flashback
- **Non-return valve:** A spring loaded non-return valve is incorporated in SLIMGUARD-82 to stop the reverse flow of gases, this being the major cause of flashback. The non-return valve is fitted upstream from the flame arresting element to ensure that the soft seat is protected from the flame front generated by the flashback.
